What is PCL?

Conceived by a group of visionary parents of developmentally challenged individuals, Parents for Community Living provides respite and residential supports to children and adults with a developmental disability.

PCL MISSION STATEMENT

To enhance the quality of life of individuals with developmental disabilities by providing services and family-like homes in our community.

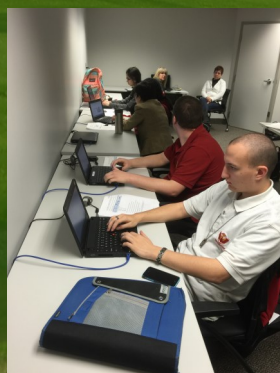

Parents for Community Living plays a very important role in the lives of people with special needs in the Waterloo Region and for their families. We currently operate 10 homes which offer various forms of support, from independent living to 24 hour enhanced living support. We currently serve over 137 children and adults.

ALL PROCEEDS

from this tournament will go toward our (CAP) Computer Apprenticeship Program.

The Computer Apprenticeship Program provides developmentally disabled youth between the ages of 16 and 21 with computer skills training and digital literacy skills which enhances their ability to live and work independently within the community.

"We have a new found hope that our son may be able to continue with this program and once finished, can find some employment where he can use the skills he has acquired".

Message from a Parent whose son is in the CA Program.
